innovative solutions addressing the human dimension of your business needs

RRC: A RELIABLE RESOURCE

Founded in 1991, Rebecca Reynolds Consulting, Inc. (RRC) brings proven, repeatable methods to clients seeking strategic and practical solutions to complex problems. RRC combines expertise in the analysis of management and organizational issues, superior skill in multi-stakeholder process design and implementation, and extensive experience helping organizations innovate and implement changes.

PRACTICAL AND LASTING SOLUTIONS

RRC expertise is complemented by extensive, first-hand experience in the government and nonprofit sectors, in a broad range of disciplines, including natural resources, education, science and research, human services, the arts, and the information and technology needs within them.

RRC offers our clients in-depth understanding of the issues they face and assists in creating lasting strategies and solutions tailored to the client's specific needs.

RRC strategy develops the big vision from which innovative ideas naturally emerge.

RRC collaborative expertise brings people together for outstanding results that are broadly owned.

RRC governance builds the structures and systems that result in highly effective decision-making.

RRC leadership development enhances knowledge and capability that catalyze positive change.
